

§ 38.253

that threaten the adequacy of supplies or the delivery process.

§ 38.253 Additional requirements for cash-settled contracts.

(a) For cash-settled contracts, the designated contract market must demonstrate that it:

(1) Monitors the pricing of the index to which the contract will be settled; and

(2) Monitors the continued appropriateness of the methodology for deriving the index and makes a good-faith effort to resolve conditions, including amending contract terms where necessary, where there is a threat of market manipulation, disruptions, or distortions.

(b) If a contract listed on a designated contract market is settled by reference to the price of a contract or commodity traded in another venue, including a price or index derived from prices on another designated contract market, the designated contract market must have rules or agreements that allow the designated contract market access to information on the activities of its traders in the reference market.

§ 38.254 Ability to obtain information.

(a) The designated contract market must have rules that require traders in its contracts to keep records of their trading, including records of their activity in the underlying commodity and related derivatives markets, and make such records available, upon request, to the designated contract market.

(b) A designated contract market with participants trading through intermediaries must either use a comprehensive large-trader reporting system (LTRS) or be able to demonstrate that it can obtain position data from other sources in order to conduct an effective surveillance program.

§ 38.255 Risk controls for trading.

The designated contract market must establish and maintain risk control mechanisms to prevent and reduce the potential risk of price distortions and market disruptions, including, but not limited to, market restrictions that pause or halt trading in market

17 CFR Ch. I (4–1–16 Edition)

conditions prescribed by the designated contract market.

§ 38.256 Trade reconstruction.

The designated contract market must have the ability to comprehensively and accurately reconstruct all trading on its trading facility. All audit-trail data and reconstructions must be made available to the Commission in a form, manner, and time that is acceptable to the Commission.

§ 38.257 Regulatory service provider.

A designated contract market must comply with the regulations in this subpart through a dedicated regulatory department, or by delegation of that function to a registered futures association or a registered entity (collectively, “regulatory service provider”), as such terms are defined in the Act and over which the designated contract market has supervisory authority.

§ 38.258 Additional sources for compliance.

Applicants and designated contract markets may refer to the guidance and acceptable practices in appendix B of this part to demonstrate to the Commission compliance with the requirements of § 38.250 of this part.

Subpart F—Position Limitations or Accountability

SOURCE: 77 FR 36700, June 19, 2012, unless otherwise noted.

§ 38.300 Core Principle 5.

To reduce the potential threat of market manipulation or congestion (especially during trading in the delivery month), the board of trade shall adopt for each contract of the board of trade, as is necessary and appropriate, position limitations or position accountability for speculators. For any contract that is subject to a position limitation established by the Commission, pursuant to section 4a(a), the board of trade shall set the position limitation of the board of trade at a level not higher than the position limitation established by the Commission.
